

EXPLORING CIVILIZATIONS

Teacher notes

This CD-Rom is a very useful research tool, and suited for year 7 and 8 pupils. The handout gives simple instructions to help pupils find information. However, the on-screen layout and guidance is very strong, so pupils should be able to research independently.

The best use of CD-Rom would be for the **Romans** in Year 7, and **Native Americans** in Year 8. However, additional information is available about Egypt, Aztecs, China, Vikings and Greece.

Two worksheets are provided – the first a general research guide, which provides instructions to enable pupils to independently research a specific area. An example search shows how to find information on the Sioux Indians. The second is a guide for year 7 pupils to complete some interactive exercises related to the Romans. Suitable for pupils who have knowledge of the Romans, the exercises assess themselves, and give timings – these can be recorded to introduce an element of competition.

Preparations.

1. Put the CD-Rom into the CD drive, and a start-up screen should appear.
2. Simply click on 
3. **If** any warning screens appear, just press 'OK'.
4. The worksheet gives pupils instructions on how to begin the quiz from the main title screen.

Once you have finished using the CD-Rom

1. Press  until you reach the main menu.
2. Then simply press
