

Changes in medicine: The Renaissance

By Mr Moorhouse.

Resource from www.SchoolHistory.co.uk and www.SchoolsHistory.org.uk

Factors affecting medicine		Causes of disease		New Features	
Factor	Effect	Cause	Evidence	Feature	Evidence
Communications a) development of printing b) accuracy of drawing					
Technology: the invention of pumps to drain mines and fight fires					
	Wounds treated led to new treatments being developed such as Pare's use of ligatures.
