

Assassination in Sarajevo!

Task 1: To be completed in pairs. Use your chronological skills to help you cut out and glue the events below into your exercise books in the correct order. You have a time limit for this task which your teacher will set. Good luck!

<p>A. The third terrorist, Nedjelko Cabrinovic, is on Cumurja Bridge along Appel Quay. He throws a bomb which lands under the third car, injuring the passengers and driver.</p>	<p>B. The driver takes a wrong turning up Franz Joseph Street and has to reverse back. At this moment the fourth terrorist, Gavrilo Princip, who is standing nearby, shoots and kills the Duke and his wife, Sofia.</p>
<p>C. Princip is arrested by police. He is later beaten up in jail.</p>	<p>D. Franz Ferdinand and his wife arrive at Sarajevo railway station at 9.30am.</p>
<p>E. The Duke and his wife get into a dark green, open-topped car. It is the second car in a line of six outside the station.</p>	<p>F. At the town hall it is decided that Sophia and the Duke will return to the station by a different route. The driver is not told.</p>
<p>G. The remaining five cars drive quickly to the town hall. They are too quick for the other three terrorists to do anything.</p>	<p>H. The first two terrorists are on Appel Quay near the station. When the cars drive past they take fright and do nothing.</p>

Task 2: Underline or highlight any words you have not come across in a **bright** colour.

Task 3: Write a minimum of half a side explaining *why* you think this one event was so important. Draw on your knowledge of the long term-causes of World War One to help you.
